### **International Group: COVID-19 Restrictions – Online Tracker**

Following our newsletter dated 24<sup>th</sup> March regarding COVID-19, we are pleased to inform you that the International Group has launched a new digital advisory tool to assist all ship operators. This online feature enables operators to locate countries and ports affected by COVID-19 and access specific advice regarding all measures implemented by that specific port in response to the pandemic.

The tool incorporates data from all 13 International Group Clubs, the International Maritime Organisation, the World Health Organisation and other leading sources to enable ships to carry out their day-to-day operations, and to assist the crew in knowing what to expect prior to arrival.

It is available by accessing this link: <https://www.igpandi.org/covid-19>

PL Ferrari always remains on stand-by to assist clients, as necessary and at any time.

This newsletter, and our information archive, can also be accessed at [www.plferrari.com](http://www.plferrari.com)
